

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

Nachfolgend sind die Lizenzbedingungen für die Benutzung von NCP-Software durch Sie, den Endanwender (im Folgenden auch: "Lizenznehmer"), aufgeführt. Durch Ihre Bestätigung nach dem Lesen dieses Hinweises erklären Sie sich mit diesen Lizenzbedingungen einverstanden. Daher lesen Sie bitte den nachfolgenden Text vollständig und genau durch. Wenn Sie mit diesen Lizenzbedingungen nicht einverstanden sind, dürfen Sie die Software nicht benutzen bzw. installieren.

1. Gegenstand dieser Lizenzbedingungen

1.1 Gegenstand dieser Lizenzbedingungen der NCP engineering GmbH (nachfolgend "NCP") ist die Nutzung der in Dateiform vorliegenden Software NCP Secure Enterprise Client (nachfolgend auch "Software"), inkl. der zugehörigen Programmbeschreibung und anderen zugehörigen schriftlichen Materialien (nachfolgend auch "Dokumentation").

1.2 Die Software verwendet Open Source Software Komponenten, die in Anhang 1 aufgeführt sind. Für diese Open Source Software Komponenten gelten ausschließlich die in Anhang 1 genannten Open Source Software Lizenzbedingungen.

1.3 Je nach der beim Erwerb der Software getroffenen konkreten Vereinbarung erhält der Lizenznehmer entweder ein zeitlich unbefristetes Nutzungsrecht (Softwarekauf) oder ein zeitlich befristetes Nutzungsrecht (Softwaremiete) an der Software.

2. Lizenzumfang

2.1 Der Lizenznehmer erhält ein einfaches, nicht ausschließliches, nicht übertragbares, nicht unterlizenzierbares Recht, die Software auf einem einzelnen Computer zu installieren und zu nutzen (nachfolgend auch "Lizenz"). Sind auf dem Computer mehrere Betriebssysteme installiert (virtuelle Umgebungen), so ist pro installierter virtueller Umgebung eine Lizenz erforderlich. Jede hierüber hinausgehende Art der Nutzung bedarf der ausdrücklichen vorherigen schriftlichen Zustimmung durch NCP.

Je nach der beim Erwerb getroffenen Vereinbarung ist die Lizenz zeitlich unbefristet (Softwarekauf) oder zeitlich befristet auf die Dauer der vereinbarten Vertragslaufzeit (Softwaremiete).

2.2 Dem Lizenznehmer ist untersagt:

- (i) die Software zu verändern, zu übersetzen, zurückzuentwickeln, zu dekompileieren, zu disassemblieren oder sie sonst abzuändern oder eine der vorstehenden Handlungen zu versuchen oder einem Dritten zu gestatten, diese Handlungen vorzunehmen, es sei denn, der Lizenznehmer ist hierzu aufgrund zwingender urheberrechtlicher Vorschriften (§ 69 e UrhG) berechtigt,
- (ii) von der Software abgeleitete Werke zu erstellen oder über das gesetzlich zwingend zulässige Maß hinaus Vervielfältigungsstücke von der Software zu erstellen oder die Dokumentation oder sonstiges auf die Software bezogenes Material zu vervielfältigen.

2.3 Die Einräumung des Nutzungsrechts des Lizenznehmers erfolgt auflösend bedingt in der Weise, dass es in folgenden Fällen automatisch endet:

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

- (i) wenn der Lizenznehmer eine Bestimmung der Ziffern 2.1, 2.2 oder 3 dieser Lizenzbedingungen verletzt, oder
- (ii) falls diese Lizenzbedingungen unwirksam sind oder der einer dauerhaften Nutzungsrechtseinräumung zugrunde liegende Kaufvertrag unwirksam ist oder infolge der Ausübung eines Rücktrittsrechts rückabgewickelt wird, oder
- (ii) im Falle der befristeten Lizenzierung im Falle einer Kündigung oder nach dem Ablauf der Vertragslaufzeit.

2.4 Darüber hinaus behält sich NCP die gesonderte Vereinbarung eines automatischen Rückfalls des Nutzungsrechts im Falle eines Zahlungsverzugs des Lizenznehmers ausdrücklich vor.

2.5 NCP behält sich alle Rechte an der Software vor, die NCP dem Lizenznehmer in diesen Lizenzbedingungen nicht ausdrücklich einräumt. Dies gilt insbesondere (aber ohne Beschränkung darauf) für das Recht zur Veröffentlichung, zur Vervielfältigung (soweit nicht in diesen Lizenzbedingungen ausdrücklich abweichend bestimmt und soweit nicht der Lizenznehmer ein gesetzlich zwingendes Vervielfältigungsrecht hat) und zur Bearbeitung an der Software.

2.6 Bei Beendigung seines Nutzungsrechtes, aus welchem Grund auch immer, ist der Lizenznehmer verpflichtet, die Software zu deinstallieren sowie alle Kopien der Software einschließlich etwaiger abgeänderter Versionen der Software sowie die Dokumentation zu vernichten und dies NCP auf Verlangen schriftlich zu bestätigen.

2.7 NCP ist dazu berechtigt, die Einhaltung von Ziffern 2.1 und 2.2 dieser Lizenzbedingungen durch den Lizenznehmer einmal jährlich während der üblichen Geschäftszeiten und unter angemessener vorheriger Ankündigung im Wege eines Audits zu überprüfen, wobei die Prüfung den Geschäftsbetrieb des Lizenznehmers nicht unangemessen beeinträchtigen darf. Zu jeder Zeit hat NCP die Vertraulichkeitsverpflichtungen des Lizenznehmers gegenüber Dritten, die Integrität der Computersysteme des Lizenznehmers und anwendbare Datenschutzgesetze angemessen zu berücksichtigen. Für die Zwecke des Audits ist NCP berechtigt, Informationen vom Lizenznehmer in Bezug auf die Einhaltung der Ziffern 2.1 und 2.2 zu verlangen. Soweit die vom Lizenznehmer zur Verfügung gestellten Informationen nicht ausreichen oder NCP Anhaltspunkte dafür vorliegen, dass die zur Verfügung gestellten Informationen nicht vollständig oder unzutreffend sind, ist NCP berechtigt, selbst oder durch einen unabhängigen Prüfer, der angemessenen Vertraulichkeitsverpflichtungen unterliegt, die Computersysteme des Lizenznehmers, auf denen die Software installiert ist und betrieben wird, zu prüfen, soweit dies erforderlich ist, um die Einhaltung dieser Lizenzbedingungen zu verifizieren. Der Lizenznehmer ist verpflichtet, NCP bzw. dem beauftragten Prüfer Zutritt zu den und Zugriff auf die Computersysteme(n) zu gewähren, soweit dies für die Durchführung des Audits erforderlich und angemessen ist. Stellt sich bei einem solchen Audit heraus, dass der Lizenznehmer den Lizenzumfang um 5 % oder mehr überschritten oder auf andere Art gegen Ziffern 2.1 oder 2.2 dieser Lizenzbedingungen verstoßen hat, so hat der Lizenznehmer die Kosten des Audits zu tragen. Weitere Ansprüche von NCP auf Schadensersatz oder Zahlung zusätzlicher Lizenzgebühren bleiben unberührt.

3. Vervielfältigung

Die Software und die Dokumentation sind urheberrechtlich geschützt.

Soweit die Software nicht mit einem Kopierschutz versehen ist, ist dem Lizenznehmer die Anfertigung einer einzigen Reservekopie nur zu Sicherheitszwecken erlaubt. Der Lizenznehmer ist verpflichtet, auf der Reservekopie den Urheberrechtsvermerk von NCP anzubringen. Ein in der Software enthaltener Urheberrechtsvermerk sowie in die Software aufgenommene Registrierungsnummern dürfen nicht entfernt werden. Außer in dem gesetzlich zwingend zulässigen Umfang ist es ausdrücklich verboten, die Software oder die Dokumentation ganz oder teilweise in ursprünglicher oder abgeänderter Form oder in mit anderer Software verbundener oder in andere Software integrierter Form zu kopieren oder anderweitig zu vervielfältigen.

4. Inbetriebnahme und Verbindung zum NCP Software Management System

Bei Inbetriebnahme verbindet sich die Software mit der vom Lizenznehmer oder von einer anderen Einheit in seiner Organisation zentral installierten NCP Zentralkomponente, welche die Software verwaltet (NCP Secure Enterprise Management System oder NCP Volume License Server, nachfolgend auch "NCP Zentralkomponente").

Die NCP Zentralkomponente authentisiert die Software und prüft die Verfügbarkeit einer Lizenz. Mit erfolgreicher Authentisierung aktiviert die NCP Zentralkomponente die Software und teilt der Software eine Lizenz zu.

NCP ist nicht verantwortlich für die Verfügbarkeit von Lizenzen und deren Zuteilung. Dies liegt in der Verantwortung des Unternehmens bzw. der Einrichtung oder Person, die die NCP Zentralkomponente nutzt und dem Lizenznehmer die Software zur Verfügung stellt.

Dem Lizenznehmer ist es ausdrücklich untersagt, den von NCP für die Installation der Software bereitgestellten Lizenzschlüssel an einen Dritten weiterzugeben oder ihn ihm auf sonstige Weise verfügbar zu machen.

Auch eine teilweise oder vorübergehende entgeltliche Überlassung der Software an einen Dritten, insbesondere Vermietung oder Verleasen der Software, sind dem Lizenznehmer ausdrücklich untersagt, es sei denn NCP hat der konkret betroffenen Überlassung ausdrücklich schriftlich zugestimmt.

5. Laufzeit dieser Lizenzbedingungen

5.1 Erwirbt der Lizenznehmer ein unbefristetes Nutzungsrecht (Softwarekauf), so gelten diese Lizenzbedingungen auf unbestimmte Zeit.

5.2 Erwirbt der Lizenznehmer ein befristetes Nutzungsrecht (Softwaremiete), so gilt hinsichtlich der Laufzeit dieser Lizenzbedingungen Folgendes:

a) Die Nutzungsrechte des Lizenznehmers nach Ziffer 2 und diese Lizenzbedingungen gelten für den in der Bestellung vereinbarten und vom Lizenznehmer bezahlten Zeitraum ("Vertragslaufzeit").

b) Das gesetzliche Recht beider Parteien zur außerordentlichen Kündigung aus wichtigem Grund bleibt unberührt.

c) Mit Ende der Vertragslaufzeit endet die Lizenz automatisch, sofern der Lizenznehmer sie nicht verlängert hat. Nach Beendigung der Lizenz ist der Lizenznehmer nicht länger berechtigt, die Software zu nutzen. Der Lizenznehmer ist allein für die rechtzeitige Verlängerung der Lizenz verantwortlich, soweit er diese benötigt.

6. Schadensersatz bei Vertragsverletzung

NCP macht Sie darauf aufmerksam, dass Sie als Lizenznehmer für alle Schäden aufgrund von Urheberrechtsverletzungen haften, die NCP daraus entstehen, dass Sie diese Lizenzbedingungen verletzen.

7. Haftung für Sach- und Rechtsmängel

7.1 Für Sach- und Rechtsmängel (nachfolgend "Mängel") an der Software haftet NCP gemäß den nachfolgenden Regelungen, soweit sich aus Ziffer 8 (Schutzrechte Dritter) nicht etwas anderes ergibt.

7.2 Der Lizenznehmer erkennt an, dass es nach dem gegenwärtigen technischen Entwicklungsstand nicht möglich ist, Datenverarbeitungsprogramme, die insbesondere mit anderen Programmen oder Anlagen verbunden werden, so zu entwickeln, dass sie vollkommen fehlerfrei arbeiten. Nach dem derzeitigen Stand der Technik können ein unterbrechungs- und fehlerfreier Betrieb und die vollständige Beseitigung aller etwaigen Fehler der Software nicht vollständig gewährleistet werden. Die vertraglich vereinbarte Beschaffenheit der Software (d.h. der Maßstab für Tauglichkeit, Einsatzfähigkeit und bestimmungsgemäße Nutzbarkeit) ist deshalb ausschließlich durch das mit der Software gelieferte, auf die Software bezogene NCP-Datenblatt beschrieben. Nur die Funktionsweise wesentlich einschränkende Abweichungen von dem maßgeblichen NCP-Datenblatt stellen einen Sachmangel dar. Individuelle Anforderungen des Lizenznehmers gelten nur dann als Teil der vertraglich vereinbarten Beschaffenheit der Software, wenn sie zuvor in einem gemeinschaftlich erarbeiteten Lastenheft ausdrücklich schriftlich definiert worden sind.

7.3 Die verschuldensunabhängige Haftung von NCP für anfängliche Mängel ist ausgeschlossen.

7.4 Im Falle der befristeten Lizenzierung (Softwaremiete) sind die gesetzlichen Rechte des Lizenznehmers in Bezug auf die Minderung in jedem Fall begrenzt auf die Rückerstattung gemäß den Bestimmungen zur ungerechtfertigten Bereicherung in Höhe des Anteils der für den Lizenzschlüssel der betreffenden Software entrichteten Gegenleistung der dem Umfang und Zeitraum entspricht, in dem der Lizenznehmer die Software für die Dauer des Vorliegens des Mangels nicht oder nicht ordnungsgemäß nutzen konnte. Im Übrigen gelten die Regelungen in Ziffer 7.5.

7.5 Die Haftung seitens NCP für Mängel gemäß dieser Ziffer setzt voraus, dass der Lizenznehmer NCP einen aufgetretenen Mangel innerhalb der Verjährungsfrist unverzüglich schriftlich mitteilt. Im Falle einer solchen schriftlichen Mängelrüge ist NCP zur zweimaligen Nacherfüllung innerhalb jeweils angemessener Frist berechtigt. NCP wird dabei nach eigener Wahl den Mangel entweder beseitigen oder Ersatz liefern. Sofern dies für den Lizenznehmer zumutbar ist, ist NCP außerdem berechtigt, den

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

Mangel auch durch Zurverfügungstellung einer Umgehungs- oder Behelfslösung zu beseitigen. Der Lizenznehmer hat NCP im Rahmen des Zumutbaren bei der Beseitigung von Mängeln zu unterstützen, insbesondere auf Wunsch von NCP die Software (wie sie bei Auftreten des Mangels benutzt wurde) zu übersenden und Maschinenzeit zur Verfügung zu stellen sowie Korrekturmaßnahmen oder Ersatzlieferungen einzuspielen, die NCP bereitstellt. Sollte die Nacherfüllung auch nach Ablauf der zweiten angemessenen Frist fehlgeschlagen sein, so ist der Lizenznehmer berechtigt, die an NCP für den/die zugehörigen Lizenzschlüssel der betroffenen Software entrichtete oder zu entrichtende Gegenleistung angemessen zu mindern oder von der Bestellung des betroffenen Lizenzschlüssels nach vorheriger schriftlicher Androhung zurückzutreten. Im Falle der befristeten Lizenzierung (Softwaremiete) tritt an die Stelle des Rücktrittsrechts das Recht, diese Lizenzbedingungen nach vorheriger schriftlicher Androhung zu kündigen, sofern der Mangel eine wesentliche Einschränkung der Gebrauchsfähigkeit darstellt. Eventuelle Schadensersatzansprüche des Lizenznehmers bleiben hiervon unberührt, wobei jegliche Schadensersatzpflicht seitens NCP abschließend in Ziffer 9 (Haftung) geregelt ist. Die Parteien sind sich einig, dass NCP erfolgreich nacherfüllt hat im Sinne dieser Ziffer 7.5, wenn NCP entweder (i) binnen zwei (2) Monaten nach Anzeige eines Mangels durch den Lizenznehmer eine neue Version der Software herausbringt und dem Lizenznehmer zur Verfügung stellt, in der der betreffende Mangel behoben ist, oder (ii) falls NCP keine solche neue Version herausbringt, wenn NCP den betreffenden Mangel binnen drei (3) Monaten nach Anzeige des Mangels durch den Lizenznehmer wie oben bestimmt beseitigt oder dem Lizenznehmer Ersatz liefert oder eine Umgehungs- oder Behelfslösung zur Verfügung stellt.

7.6 Ansprüche wegen Sach- und Rechtsmängeln verjähren in zwölf (12) Monaten ab dem gesetzlich vorgesehenen Verjährungsbeginn. Ausgenommen hiervon sind die Fälle der Ziffer 9.2. In diesen Fällen gelten für die Verjährungsfrist die gesetzlichen Vorschriften.

7.7 Die Parteien sind sich einig, dass die Übernahme einer Garantie stets eine ausdrückliche schriftliche Vereinbarung erfordern soll, in der die Garantie ausdrücklich als "Garantie" zu bezeichnen ist.

7.8 Sollten die aufgetretenen Probleme nicht durch die von NCP überlassene Software, sondern durch Softwareprodukte Dritter oder durch die verwendete Hardware verursacht worden sein, so sind diesbezügliche Mängelansprüche von dem Lizenznehmer gegenüber NCP ausgeschlossen. Gleiches gilt, sofern der Lizenznehmer die Software vertragswidrig nutzt, oder sofern der Lizenznehmer oder ein von ihm beauftragter Dritter Änderungen oder Bearbeitungen an der Software vorgenommen hat oder es sich um lediglich unwesentliche Abweichungen von der vertraglich vereinbarten Beschaffenheit der Software handelt.

8. Schutzrechte Dritter

Sollte ein Dritter gegenüber dem Lizenznehmer geltend machen, dass die Nutzung der Software durch den Lizenznehmer in Übereinstimmung mit diesen Lizenzbedingungen Urheberrechte oder gewerbliche Schutzrechte des Dritten verletzt, so ist der Lizenznehmer zur sofortigen Mitteilung gegenüber NCP verpflichtet. NCP stellt den Lizenznehmer im Rahmen der in Ziffer 9 (Haftung) vereinbarten Haftungsbeschränkung von rechtskräftig gerichtlich festgestellten Ansprüchen Dritter

wegen Rechtsmängeln der Software frei. Diese Freistellungsansprüche unterliegen der Verjährungsfrist für Rechtsmängel.

9. Haftung

9.1 Vorbehaltlich der Regelung in Ziffer 9.2 wird die gesetzliche und/oder vertragliche Haftung von NCP für Schadensersatz wie folgt beschränkt:

- (i) NCP haftet der Höhe nach begrenzt auf den bei Vertragsschluss typischerweise vorhersehbaren Schaden für die leicht fahrlässige Verletzung wesentlicher Pflichten aus dem Schuldverhältnis (d.h. solcher Pflichten, deren Erfüllung die ordnungsgemäße Durchführung des Vertrages überhaupt erst ermöglicht, deren Verletzung die Erreichung des Vertragszwecks gefährdet und auf deren Einhaltung der Lizenznehmer regelmäßig vertraut, sog. Kardinalspflichten);
- (ii) NCP haftet nicht für die leicht fahrlässige Verletzung nicht wesentlicher Pflichten aus dem Schuldverhältnis.

9.2 Die vorgenannte Haftungsbeschränkung gilt nicht in den Fällen einer zwingenden gesetzlichen Haftung (insbesondere nach dem Produkthaftungsgesetz) sowie bei Übernahme einer Garantie, bei vorsätzlich oder grob fahrlässig verursachten Schäden oder schuldhaft verursachten Körperschäden.

9.3 Der Lizenznehmer ist verpflichtet, sämtliche angemessenen Maßnahmen zur Schadensabwehr und Minderung zu treffen, was insbesondere eine Pflicht des Lizenznehmers zur regelmäßigen Datensicherung und zur nachgelagerten Durchführung von Security-Checks (insbesondere zur Abwehr bzw. Entdeckung von Viren und anderen Störprogrammen im IT-System des Kunden) umfasst.

9.4 NCP haftet nicht für indirekte und/oder Folgeschäden, gleich aus welchem Rechtsgrund, insbesondere nicht für entgangene Gewinne und Zinsverluste, es sei denn, es liegt ein Fall von Vorsatz oder grober Fahrlässigkeit vor.

9.5 Soweit NCPs Haftung ausgeschlossen oder beschränkt ist, gilt dies auch für die persönliche Haftung der Vertreter, Angestellten und Erfüllungsgehilfen von NCP.

10. Aktualisierung der Software (nur bei Softwaremiete)

Im Falle der befristeten Lizenzierung (Softwaremiete) gilt:

Während der Vertragslaufzeit wird NCP dem Lizenznehmer im Rahmen des Software Update Service von NCP Aktualisierungen oder neue Versionen der Software zur Beseitigung von Mängeln, Funktionsverbesserung, Fehlerbehebung oder zur Einführung von neuen Funktionen zur Verfügung stellen (zusammengenommen: „Software Updates“). Der Lizenznehmer ist verpflichtet, die ursprünglichen Lizenzschlüssel für die Anzahl der vom Lizenznehmer erworbenen Lizenzen aufzubewahren und für die Inbetriebnahme der Software Updates bereitzuhalten.

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

Es obliegt dem Lizenznehmer, die zur Verfügung gestellten Software Updates zu installieren. Dies gilt insbesondere für Software Updates, die Fehler oder Sicherheitsrisiken beheben. Außer in den in Ziffer 9.2 genannten Fällen haftet NCP nicht für Schäden, die vermieden worden wären, wenn der Lizenznehmer von NCP zur Verfügung gestellte Software Updates installiert hätte.

Zeitpunkt und Inhalt der von NCP zur Verfügung gestellten Software Updates stehen in NCP's alleinigem Ermessen. Es obliegt dem Lizenznehmer, seine Konfigurationen der Software vor Installation eines Software Updates zu sichern, da diese ggf. im Software Update nicht enthalten sein könnten. Der Lizenznehmer ist selbst dafür verantwortlich, seine Konfigurationen in dem Software Update zu implementieren.

Für Software Updates gelten diese Lizenzbedingungen entsprechend.

11. Lizenzgebühr

Die vom Lizenznehmer geschuldete Lizenzgebühr wird separat vereinbart.

Soweit nicht etwas Abweichendes vereinbart ist, erfolgt im Falle der Softwaremiete eine monatliche Abrechnung der Lizenzgebühr. Die Lizenzgebühr wird auf der Grundlage der über die NCP Zentralkomponente zentral erfassten und in den durch die Software generierten Nutzungsberichten („Lizenz-Reports“) dokumentierten tatsächlichen Nutzung der Software anhand der vereinbarten Lizenzmetrik monatlich berechnet. Der Lizenznehmer ist verpflichtet, dafür zu sorgen, dass die Lizenz-Reports monatlich erstellt und NCP per E-Mail übermittelt werden oder dass NCP monatlich der Zugriff auf die in der Software erfassten Daten zum tatsächlichen Nutzungsvolumen ermöglicht wird.

12. Export-/Importkontrollrechte

Die Software unterliegt möglicherweise den Export- und/oder Importkontrollgesetzen einzelner Staaten. Sollte der Lizenznehmer für den Erwerb, die Verbringung, die Nutzung oder den sonstigen vertragsgemäßen Umgang mit der Software eine behördliche Genehmigung benötigen oder sonstige behördliche Anforderungen erfüllen müssen, so verpflichtet sich der Lizenznehmer, jede derartige Genehmigung und/oder die Einhaltung sämtlicher derartiger Anforderungen auf eigene Kosten einzuholen und/oder herbeizuführen und dies NCP bei Bedarf auf Anfrage nachzuweisen. Die Einhaltung etwaiger auf den Erwerb, Transport, die Nutzung oder den sonstigen vertragsgemäßen Umgang mit der Software erforderlicher anwendbarer Gesetze, Verordnungen oder sonstiger verbindlicher Regeln liegt im alleinigen Verantwortungsbereich des Lizenznehmers.

13. Rechtswahl und andere allgemeine Bestimmungen

13.1 Diese Lizenzbedingungen unterliegen deutschem Recht unter Ausschluss des UN-Kaufrechts. Ausschließlicher Gerichtsstand für alle Streitigkeiten aus oder in Zusammenhang mit diesem Vertrag ist Nürnberg. NCP ist jedoch berechtigt, den Lizenznehmer an jedem anderen gesetzlichen Gerichtsstand zu verklagen.

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

13.2 Änderungen oder Ergänzungen dieser Lizenzbedingungen bedürfen zu ihrer Gültigkeit der Schriftform.

13.3 Abweichende allgemeine Geschäftsbedingungen, auch solche, die z.B. in einem Auftrag oder einer Lieferbestätigung des Lizenznehmers enthalten sind, gelten nicht, soweit die Parteien dies nicht schriftlich anderweitig vereinbaren.

13.4 Sollte eine Bestimmung dieser Lizenzbedingungen unwirksam oder undurchsetzbar sein oder werden oder sollten diese Lizenzbedingungen eine Lücke aufweisen, so berührt dies die Wirksamkeit und Durchsetzbarkeit der übrigen Bestimmungen dieser Lizenzbedingungen nicht.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) The modified work must itself be a software library.
- b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work,

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License.

Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system,

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

Software Lizenzbedingungen

NCP Secure Enterprise Client

Stand Januar 2017

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.> Copyright (C) <year> <name of author> This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the library `Frob' (a library for tweaking knobs) written by James Random Hacker.
